

8 Ports DMX Splitter

DMX Splitter for your controller and DMX Lighting

V2.1

8Ports DMX Splitter

Feature:

DMX-8 is specially designed for connection of DMX receivers (dimmers, color changes, moving lights, etc.) in a star configuration.

DMX-8 can surmount the restriction that single RS485 can only connect 32 sets of equipment

The multiple output optically isolated DMX512 distribution amplifiers have become necessary in many DMX512 systems

DMX-8 provide total electrical ground isolation between different branches of the star, this greatly decreases problems with ground loops

DMX-8 splitter and refits the DMX signal , that it makes the DMX data transmission more reliable

PRODUCT SPECIFICATION:

PRODUCT SPECIFICATION

Interface Type	RS-485
Signal connection socket	Input: XLR-3-M Output : XLR-3-F
Input output electrical isolation voltage	>AC 300V
Power Supply	90-240VAC 50HZ/60HZ, 15W
Dimension	484*45*140mm "19" 1U
Weight	1.9KG
